high integrity [energy consumption data, Realtime pricing is applied]
high integrity [energy consumption data, Customer is notified about the price]
high integrity [water consumption data, Realtime pricing is applied]
high data integrity [energy consumption data, Realtime pricing is applied]
high service integrity [energy consumption data, Realtime pricing is applied]
high integrity [electronic consumption data, Realtime pricing is applied]
high integrity [energy consumption data, Realtime price is obtained]
high integrity [energy consumption data, ES sends price to customer]
high integrity [water consumption data, Customer is notified about the price]
high data integrity [energy consumption data, Customer is notified about the price]
high service integrity [energy consumption data, Customer is notified about the price]
high data integrity [water consumption data, Realtime pricing is applied]
high integrity [electronic consumption data, Customer is notified about the price]
high service integrity [water consumption data, Realtime pricing is applied]
high data integrity [electronic consumption data, Realtime pricing is applied]
high service integrity [electronic consumption data, Realtime pricing is applied]
high integrity [water consumption data, Realtime price is obtained]
high data integrity [energy consumption data, Realtime price is obtained]
high integrity [energy consumption data, New price is available]
high service integrity [energy consumption data, Realtime price is obtained]
high integrity [electronic consumption data, Realtime price is obtained]
high integrity [energy consumption data, Load info is available]
high integrity [water consumption data, ES sends price to customer]
high data integrity [energy consumption data, ES sends price to customer]
high service integrity [energy consumption data, ES sends price to customer]
high data integrity [water consumption data, Customer is notified about the price]
high integrity [electronic consumption data, ES sends price to customer]
high service integrity [water consumption data, Customer is notified about the price]
high data integrity [electronic consumption data, Customer is notified about the price]
high service integrity [electronic consumption data, Customer is notified about the price]
high data integrity [water consumption data, Realtime price is obtained]
high integrity [electronic consumption data, New price is available]
high data integrity [energy consumption data, New price is available]
high service integrity [energy consumption data, New price is available]
high integrity [electronic consumption data, Realtime price is obtained]
high integrity [electronic consumption data, New price is available]
high service integrity [electronic consumption data, Realtime price is obtained]
high integrity [water consumption data, Load info is available]
high data integrity [water consumption data, Load info is available]
high service integrity [water consumption data, Load info is available]
high integrity [electronic consumption data, Load info is available]
high integrity [energy consumption data, Receive energy consumption data from SM]
high integrity [water consumption data, Receive energy consumption data from SM]
high data integrity [energy consumption data, Receive energy consumption data from SM]
high service integrity [energy consumption data, Receive energy consumption data from SM]
high integrity [electronic consumption data, Receive energy consumption data from SM]
high integrity [energy consumption data, Support smart grid]
high data integrity [water consumption data, Calculate price]
high service integrity [water consumption data, Calculate price]
high data integrity [energy consumption data, Calculate price]
high service integrity [energy consumption data, Calculate price]
high data integrity [electronic consumption data, Calculate price]
high integrity [electronic consumption data, Calculate price]
high service integrity [electronic consumption data, Calculate price]
high data integrity [water consumption data, Support smart grid]
high service integrity [water consumption data, Support smart grid]
high integrity [water consumption data, ES has the realtime load info]
high data integrity [energy consumption data, ES has the realtime load info]
high service integrity [energy consumption data, ES has the realtime load info]
high integrity [energy consumption data, Sends energy consumption data to ES]
high data integrity [electronic consumption data, Support smart grid]
high integrity [electronic consumption data, ES has the realtime load info]
high service integrity [electronic consumption data, Support smart grid]
high integrity [electronic consumption data, Sends energy consumption data to ES]
high integrity [water consumption data, Realtime load info is available]
high data integrity [energy consumption data, Realtime load info is available]
high service integrity [energy consumption data, Realtime load info is available]
high integrity [electronic consumption data, Realtime load info is available]
high integrity [energy consumption data, Measure energy consumption]
high service integrity [water consumption data, ES has the realtime load info]
high data integrity [water consumption data, ES has the realtime load info]
high integrity [water consumption data, Sends energy consumption data to ES]
high data integrity [energy consumption data, Sends energy consumption data to ES]
high service integrity [energy consumption data, Sends energy consumption data to ES]
high data integrity [electronic consumption data, ES has the realtime load info]
high service integrity [electronic consumption data, ES has the realtime load info]
high data integrity [electronic consumption data, Sends energy consumption data to ES]
high service integrity [electronic consumption data, Sends energy consumption data to ES]
high service integrity [water consumption data, Sends energy consumption data to ES]
high data integrity [water consumption data, Sends energy consumption data to ES]
high service integrity [water consumption data, Measure energy consumption]
high data integrity [water consumption data, Measure energy consumption]
high data integrity [electronic consumption data, Measure energy consumption]
high service integrity [electronic consumption data, Measure energy consumption]
