

Silvia Bordin & Zeno Menestrina – ICT doctoral school

14 October 2013

DEVELOPERS COMMUNITY HCI class 2013 - coursework

SMART CAMPUS & DEVELOPERS

- Open source development model
- Coding base

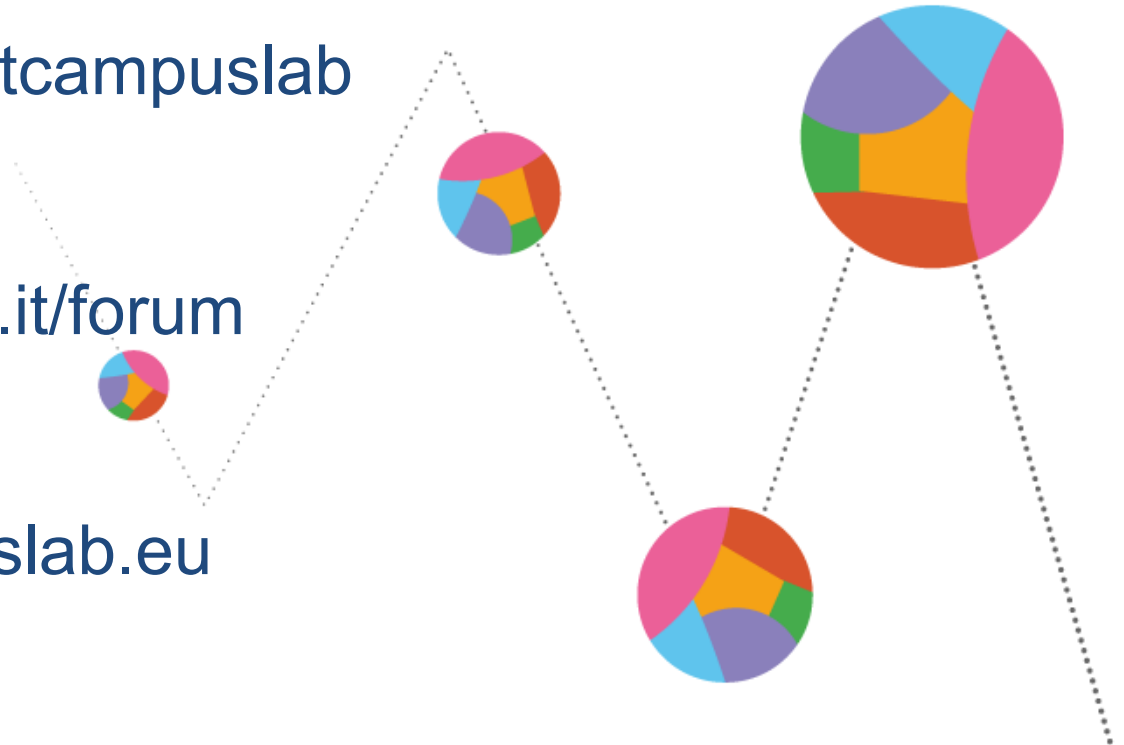

github.com/smartcampuslab

- Forum

smartcampuslab.it/forum

- Devs wiki

dev.smartcampuslab.eu

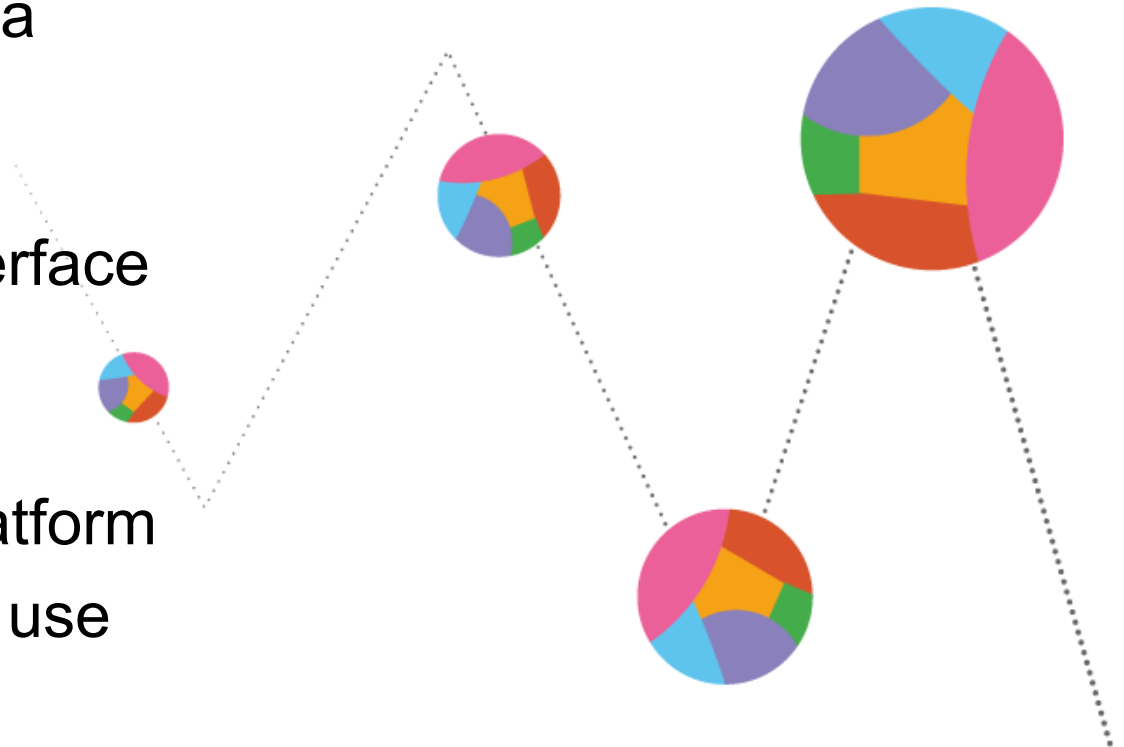

THE CHALLENGE

- Facilitate the access of new developers
- Code and community
- Contribute to the development
- Effectively and quickly
- Your contribution!

THE GOAL

- A **tutorial** for developers
- How to implement a missing / weak functionality
- With graphical interface
- Using the services provided by the platform
- Documenting their use

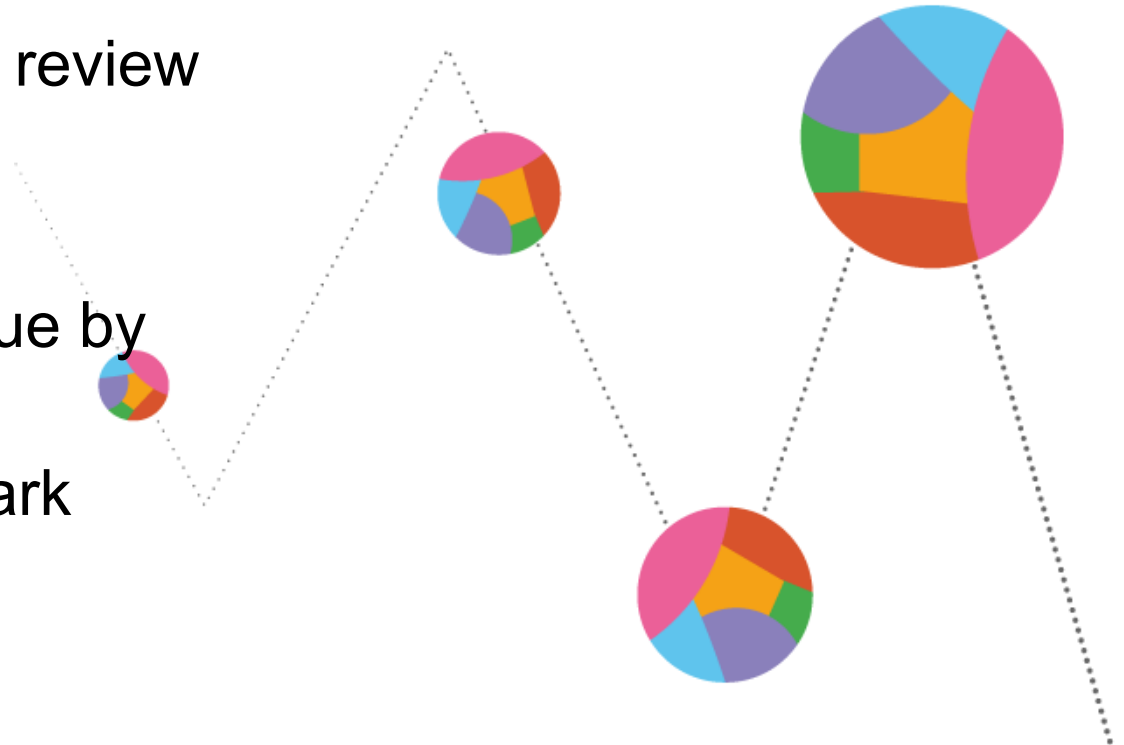

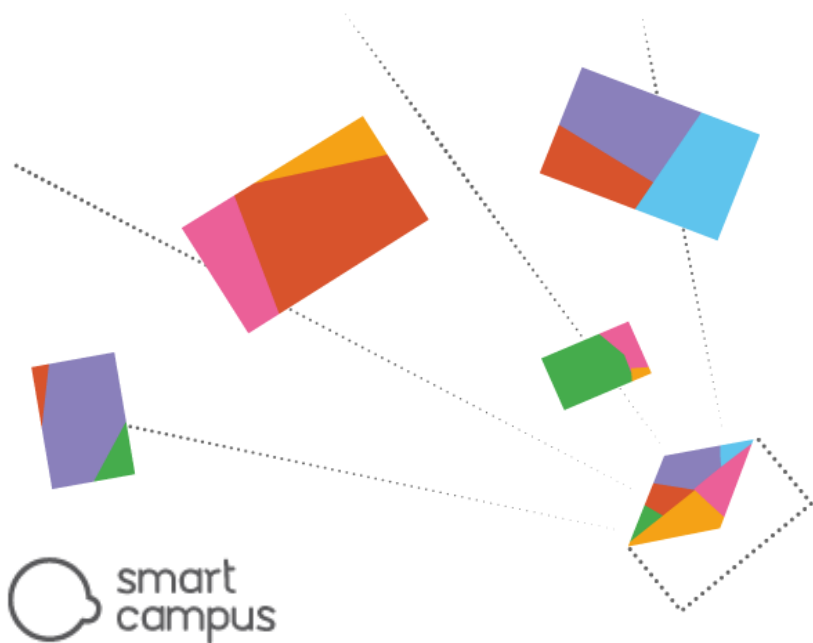

MILESTONES

- 2nd week: analysis of the information sources and **idea**
- 5th week: prototypes of the functionality and structure of the tutorial
 - Rationale for how you use the information sources
- 9th week: summary and tutorial
 - Optionally, code of implemented functionality

SIDENOTES

- Feedback meetings every 10-15 days
- Book a time slot to review progress
- Final deliverable due by **December 19th**
- 80% of the final mark
